

***Contact Lens Trial Policy**

Contact lens trials (disposable and frequent replacement) are supplied to our office from our suppliers for the purpose of fitting.

- They are not available for purchase.
- They will only be supplied to a patient during the 90-day trial period.
- If the prescription is about to expire and the patient is due for the annual contact lens fitting, we can dispense a onetime set of trials in the old prescription and schedule the upcoming examination during the wear-cycle of the dispensed trials. New lenses will not be ordered until the examination is completed.
